2. Publication of information

2.1. Annual reports, half-yearly reports and other interim reports

2.1.1	Annual reports, half-yearly reports and other interim reports for publication are considered at board meetings that are held after the close of exchange trading hours.	<input checked="" type="checkbox"/>	Cambi typically approves its interim reports by written procedure. There is no specific time for when the board meetings are held. Report approval opens after the close of exchange trading hours and is recorded when a majority has signed.

A full annual report is published separately.
2.1.4	[...] half-yearly reports and interim reports for the first and third quarters are published as soon as possible and no later than by the 15 th day of the second month after the end of the accounting period in question.	Partly comply	The half-yearly report is published as soon as possible within the following quarter but not within the 15 th day of the second month after the end of the accounting period. In 2025, the half-year report was published on 19 August. The timeline is set annually and ensures optimal resource allocation within the finance department and wider organisation.
2.1.5	It is recommended that annual reports are published as quickly as possible and no later than three months after the end of the accounting period in question, unless the company has released an interim report for the fourth quarter by this date.	<input checked="" type="checkbox"/>	Cambi publishes an interim report for the fourth quarter by the end of March and an annual report by the end of April.
2.1.6	Interim reports that are published for the first, third and fourth quarter, should be prepared in accordance with IAS 34 or with an equivalent accounting standard where the company reports in accordance with other recognised IFRS-equivalent accounting standards.	<input type="checkbox"/>	Cambi is listed on Euronext Growth and hence not required to report following IFRS accounting standards. The company reports in accordance with the Norwegian Accounting Act and Norwegian Generally Accepted Accounting Principles (NGAAP).
